

European Airline

Introduction

This case study of a large enterprise aerospace & defense company is based on a January 2018 survey of Agari customers by TechValidate, a third-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“Agari Customer Protect assisted us with stopping approximately 10k phishing emails per day.”

Challenges

The business challenges that led the airline to evaluate and ultimately select Agari Customer Protect included:

- Preventing cybercriminals from phishing customers, using their brand to commit fraud
- Protecting employees against business email compromise or executive spoofing attacks that use their email domain

Use Case

The key features and functionalities of Agari the surveyed company finds most valuable include:

- DMARC, SPF, DKIM Email Authentication Policy Management
- Third-Party Email Sender Discovery, Management & Governance

Prior to selecting Agari the airline evaluated the following vendors:

- DMARC Analyzer
- DMARCIAN
- An in-house solution
- Proofpoint (Return Path)
- Valimail
- 250ok
- FraudMarc

Results

The company has realized the following benefits as a result of implementing Agari:

- Prevention of phishing on domains
- Reduced consumer fraud/support costs related to email

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Large Enterprise

Industry:
Aerospace & Defense
